

Certified biodegradable Masterbatch

Sicoversal® B

Facts & Figures

- Based on compostable ecoflex®
- Compatible with various compostable biopolymers & blends
- Proven biodegradable
- DIN CERTCO & Ok-compost certificate
- Suitable for food contact & films

Why choose Sicoversal® B?

- Ideal for the coloration of PLA copolymer blends like ecovio® & PLA
- Gives biopolymers brilliant color & homogeneous color distribution
- Meets European composability standards & contributes to a sustainable future

Sicoversal® B

Certified biodegradable Masterbatch

Enhancing the brilliancy of environment-friendly, compostable polymers

The biological decomposability of plastics is an important matter these days. The coloration of biodegradable polymers like BASF's ecoflex® & ecovio® remained a challenge.

With Sicoversal® B BASF Color Solution offers a solution combining several advantages:

- Certified compostable acc. DIN EN13432 & others
- Homogeneous color distribution
- Vivid color shades
- Suitable for PLA copolymer blends & PLA

A portfolio of 12 regular colors and 3 types for paper coating is offered. These colors shades are already certified. Further, tailor made colors can be developed & certified upon request.

In this way, BASF Color Solutions fosters a wider use of biodegradable biopolymers.

BASF Color Solutions offers a portfolio of 12 certified standard colors

3 special types for paper coating
